DETAILED ACTION

Claim Objections

Claims 8 and 15 are objected to because of the following informalities: Claims 8 and 15 depend from cancelled claims. For the purposes of this Office Action, it was assumed that claims 8 and 15 comprise all the limitations of the cancelled parent claim(s). Appropriate correction is required.

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions that are not so linked as to form a single general inventive concept under PCT Rule 13.1. In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claims 1-5, 8, 19-22 and 23-28, drawn to methods for modulating T cell activation *in vivo* or *ex vivo* by modulating a sustained rise in Ca^{+2} entry via a cADPR-mediated pathway, and for treating related diseases.

Group II, claims 29-31, drawn to methods for identifying a substance capable of modulating a sustained rise in Ca^{+2} entry via a cADPR-mediated pathway.

Group III, claim 15, drawn to compounds identified using the assay of Group II.

The inventions listed as Groups I, II and III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Groups I, II and III do not

Art Unit: 1623

have a common special technical feature over the prior art. Compounds capable of modulating a sustained rise in Ca^{+2} entry via a cADPR-mediated pathway have been known in the art prior to the filing of the present invention. See, for example, WO 98/43992 to GALIONE et al. (AB). Group I is directed to methods for the treatment of a human or mammal using such compounds. Group II is directed to methods for identifying such compound. Group III is directed to compounds identified using the assay of Group II.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even if the requirement is traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
